

**CR Committee Minutes
January 4, 2010 Meeting**

Members present: George, Larry Raymer, Alan H., Valerie H, John Williams, Vivian W., Sheila W.

OLD & ONGOING BUSINESS

1. 306th Development and Flag pole: George & Debbie have funding and resources lined up; plans have been approved by WA County as of this writing (1/6/10). Permit process pending; plaque has been ordered, stone is being selected. Tentative dedication for Flag Day weekend or thereabouts: June 12, we hope. Plans for the ceremony with the local Veterans groups sound impressive. **GOOD JOB!**

2. Tents: The new tents have been delivered. Committee recommends only experienced crew handle the set up & taking down from now on. **NOTE:** The old tents may still be usable under certain conditions. (Was Larry R going to check into where they are stored, etc.?)

3. SHOA Office Emergency Plan: Valerie has the list of committee volunteers. CR Committee members voted to man office 11 a.m. to 8 p.m. during power outages, in 1 or 2 hour shifts, to be determined. Will discuss further next month.

4. Board, Staff, CR & SHOA inter-communication: Committee discussed changes to office and recycler hours. Barbara told us these were procedural changes. John Williams to inquire: will these shorter work hours impact salary &/or wages?

5. Weekender/Observer: Barbara Robinson encouraged us to submit info of interest to the Weekender, and plans for a monthly 'Surfside Corner' in The Chinook Observer are in place. **ALL COMMITTEES ARE URGED TO CONTRIBUTE UPDATES, PLANS, ACTIVITIES, ETC. THE DEADLINE FOR THE FEBRUARY 3rd ISSUE IS FRIDAY, JANUARY 22.** This committee firmly backs any attempt to inform & communicate with our membership. What a great opportunity to promote Surfside!

6. Newsletter: We voted unanimously to back Debbie Richmond & Barbara Robinson's suggestion re. Georgia's Dec. 8th recommendation to the Board.

7. Cabanas, 306th site, 300th Pl. sign: Committee notes the ongoing neglected maintenance of these grounds: profusion of dead weeds, multiple mole hills, erosion of bark mulch on breams, and unfinished gravel walkways accessing the bridges. Clean-up and completion to be scheduled through Barbara?
