

Minutes for the Emergency Management Committee, July 25, 2017  
Members present: Walter Platt and John Williams

1. The Red Cross Training occurred Saturday, July 22. The training was on Emergency Sheltering. The participants were Pat Bonneville, Polly Foster, Terri Daniels, Debra Wells, Jole Williams, and John Williams

2. The chair will be attending the Water Planning meeting in early August (August 10). A proposal will be made to them regarding emergency caches. Early on, we would plan to utilize some storage room in the new building for storing the caches. As the plan meets a modicum of success, we can address getting small storage buildings that could be placed on the water department property. All of this is contingent upon approval of funding by the board. John went to see the storage facility with Gil Gonzales and Lara Frazier.

3.. We need to do some thinking on what we wish to budget for next year; we can include an amount for 10-12 caches.

4. Amateur Radio:

A fifth weekend occurs in July. This usually involves the SHOA radio club manning the radio in the board room on that Saturday morning. SHOA will be participating. SHOA hams were involved with both the first Monday checks on the tsunami warning sirens and also in working with the Beach Cleanup.

6. The August meeting is scheduled for August 29 at 1 PM.
