

# Average INDOOR household water use is 100 GALLONS per PERSON per Day

	1 person	2 people	3 people	4 people	1 person w/ irrigation	2 people w/ irrigation	3 people w/ irrigation
Monthly use in Gallons	3,000	6,000	9,000	12,000	15,000	18,000	21,000
Monthly use in Cubic Feet	401	802	1,203	1,604	2,005	2,406	2,807

That means 1 person uses 15 HOT TUBS of water every month

Irrigation systems dramatically increase household water use

Your water meter can deliver 25 gallons per minute.

An irrigation system can use 1-6 gallons per minute PER EACH IRRIGATION HEAD

Most irrigation systems will easily use 25 gallons per minute.

If you run an irrigation system TWICE PER WEEK

for 1 HOUR you will use an additional **12,000 gallons per month** (or 1,604 Cubic Feet). *(25 gallons per minute x 60 minutes per day x 2 days per week x 4 weeks per month)*

With an irrigation system, 1 person uses 75 HOT TUBS of water every month
