

WATER DEPARTMENT

SPECIAL UPDATE

AUTO FLUSHING AT NIGHT

As of August 8th, we are running a few auto flushers at night to bring fresh, cooler water to members. Auto flushing should improve water quality, including reducing color.

The automatic flushing units (bright yellow boxes) are set up on small red flushing hydrants at the following locations:

300th & W (at the cabana) 11:30 pm to 1:30 am

357th & G Street 1:30 am to 3:30 am

320th & G Place (end of Cul-de-sac) 3:00 am to 5:00 am

If you are experiencing any water quality issues, please email or call us.
