## ATTENTION!!

Due to the increased COVID outbreak concerns as mentioned in the last two Chinook Observer articles, the August 21st Board Meeting will be taking place via Zoom. The Board of Trustees will be here in the Board Room along with two employees. The concerns of a large audience and a very small meeting room left hesitation on how to socially distance.

Tracy Lofstrom is inviting you to a scheduled Zoom meeting.

Topic: SHOA Board Meeting

Time: Aug 21, 2021 08:30 AM Pacific Time (US and Canada)

Join Zoom Meeting

The floor comment time is 20 minutes which means 10 speakers at 2 min each.

Everyone except the Board of Trustees will be muted. If you are a speaker, you will be unmuted for your 2 min comment.

## HOW to CHANGE a COVENANT!

To amend a covenant or to maintain the current covenant is the question dividing the members of Surfside Estates. A great deal of activity is being planned it appears. In the Surfside Covenants amended 8-18-18 the process is stated clearly on pages 25 and 26. Following is what Article # 9 states:

### 9.0 AMENDMENT

9.1 The Surfside Board retains the right to amend the Covenants from time to time in the future as it deems appropriate, notwithstanding the fact the Covenants may be adopted as county zoning.

9.2 The Board may amend these covenants in whole or in part as specified in the Articles and By-Laws; provided, however, that these covenants shall not be amended without prior notice and a hearing with the membership.

9.3 Notice of the proposed amendments shall be mailed to each member of record not less than thirty (30) days before the hearing date. The notice shall outline the nature of the proposed changes and the time and place of the hearing.

9.4 Enactment of a resolution by their Board approving an amendment after notice and hearing and its recordation with the Auditor of Pacific County, Washington shall constitute final action and amendment.

Surfside HOA has a Trustee, Ronda Christoph, who publicly on social media insists the solution to Covenant change is floor motions, gathering shouting people and as she puts it, gather as many people as possible together to have a barn burning. She sows discontent by fabricating partial truths as in asking the Business Manager how many non-compliance letters have been written since the Members Meeting, July 10<sup>th</sup>? The answer at the time was 34, perhaps not all trees. What she failed to post was there were zero (0) fines levied. THE SURFSIDE OFFICE LISTENED TO YOU AND EXTENDED THE MORATORIUM ON FINES, VOLUNTARILY. Coming to the office and saying it again is simply redundant. We would hear you again, but it doesn't change a Covenant. Section 9 of the Covenants above changes a Covenant. You will have a minimum of thirty days to prepare "a hearing of the membership" argument. This is the only way to change a Covenant or on the other hand sustain the existing Covenants.

It is my intention at the August BOT meeting to make a motion to form an ad hoc committee, with two rational Trustees plus volunteer members to address the issue of tree height first and other issues that are a concern. They will be asked to return with a proposal for the September BOT meeting, where a public hearing date will be set with a minimum of 30 days, to resolve this issue. Encouragement has been found by me from some very intelligent e-mails that have been sent. There is a solution that everyone can live with, satisfied. In the meantime, Trustee Christoph and all bloggers should turn down the inflammatory rhetoric. It is only causing division and discontent to our peaceful seaside community, that we love.

An incredible amount of interest was created by my previous weeks invitation for Surfside United to step forward and introduce themselves. This page is the space they would have occupied if they had done so but didn't.

Ric Minich, Surfside HOA President

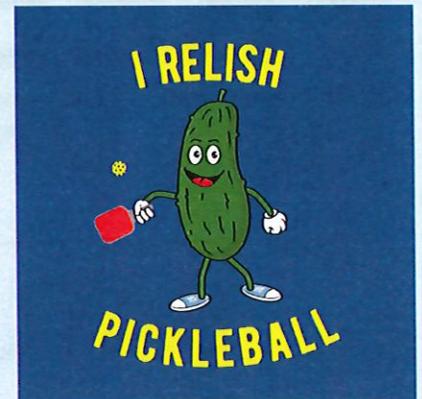

## NEW VOLUNTEERS ARE NEEDED BY SHOA EMERGENCY MANAGEMENT COMMITTEE

We need some new folks to join us in preparing for emergencies in Surfside. Our goal is to make Surfside a safer place to live and enjoy life. We do planning for such events as floods, wind damage, fires, loss of power, providing safe places when emergencies happen. And yes preparedness for tsunamis. We would help members plan for these eventualities. We have established a storage shed for members to store belongings in the case of a major emergency. And we have events like the annual tsunami run/walk where getting prepared for the big one can turn into a fun occasion. If interested, call John Williams at 360-665-6598 and/or talk to Kimber or Mo at the SHOA office or call 360-665-4171 (press 4 at the prompt) . We look forward to making friends.

## Ocean Park Pickleball

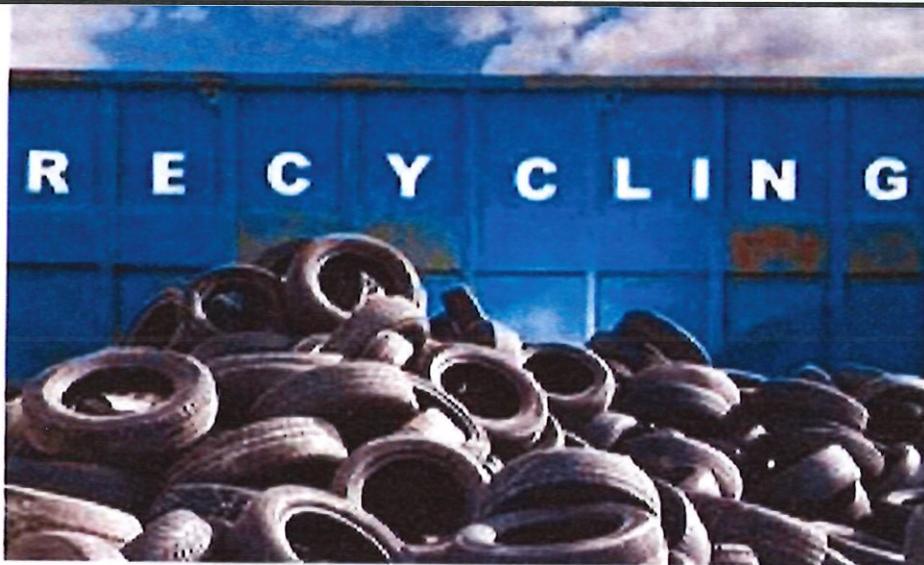

Free with all the equipment, 10 AM daily weather permitting, wear tennis shoes and we will teach you how to play. Located across the street from the Ocean Park Elementary School. Social exercise and lots of fun. Fastest growing sport in the world thanks to seniors!

## Compactor Attendant Needed:

We are looking to add another compactor attendant. The number of full-time members has increased, and more people are spending time at their Surfside property, in general. Every month so far in 2021 has had 400-500 more cars/walkers than in 2020, except one month. There is a need to have two attendants on duty most days of the week and especially holiday weekends. Most likely close to 20 hrs./week (we would consider two people at 10 hrs. each).

If you are interested, please contact the business office for an application.

## Chipping Site

The chipping site will remain **open** for 29 days on **Wednesdays** and **Saturdays** from **10:00 a.m. until 2:00 p.m.**, through **Wednesday, September 8<sup>th</sup>**.

### **Some basic rules for accessing the Firewise Chipping Site:**

Upon entering the chipping site, members must **display their compactor passes** (the same pass used to access the garbage drop off site just off 324<sup>th</sup> St) to access the chipping site. If a contractor is removing yard waste for a Surfside member, the contractor must provide the member's name/address to access the chipping site.

Everyone using the chipping site must **sign in on the clipboard** provided by the site volunteers, indicating their name, address, the number of hours dedicated to brush removal/tree trimming, and the number of loads of material dropped off that day.

Costs of operating the chipping site are partially offset by members'/contractors' donations to the Surfside Firewise Chipping Site Program. **You will be offered an opportunity to make a donation** to help offset the costs of fencing, signage, and chipper/grinder rental costs and labor.

**You may not drop off any noxious weeds/invasive species** at the chipping site. The volunteers can show you pictures of some prohibited items. Basically, anything that is declared a noxious weed by WA State or regionally by Pacific County officials must be disposed of at the Pacific County waste transfer station near Long Beach on Sandridge Rd. Some of these items have common names like: gorse, Scotchbroom, tansy ragwort, knotweed, Himalayan blackberry vines, etc.

**Some materials are not authorized for drop off** at the chipping site. These items include any **dimensional lumber pieces/scraps, grass clippings, tree stumps, brush or tree root masses, or any tree/brush limbs larger than six inches in diameter.** This is a new prohibition this year! If you have tree limbs larger than six inches in diameter, you have several choices: cut them into firewood-sized pieces and offer them for free from the front of your property, or haul them to the Pacific County waste transfer station near Long Beach on Sandridge Rd.

**Please do not drop off any items outside of the fence line after hours,** when no volunteers are present. We're providing 29 days for members to drop off their brush and tree trimmings. Find an open time to make it work. Thank you!

## A message from Department of Fish & Wildlife

If you live in an area where black bears are seen or are causing damage to your property, use the following management strategies around your property to prevent conflicts:

- ⇒ Remember– Bears are typically present because of an attractant
- ⇒ The first step would be to secure your garbage either in a garage or locked shed to prevent the bear from having access to it. If you don't have a garage or shed we recommend contacting your waste disposal company and seeing if they offer bear proof garbage cans. Remember, an empty trash bin still smells like dinner to them!
- ⇒ We also request that you take down bird/suet feeders for the season as bears are attracted to these as well.
- ⇒ We also strongly recommend talking with your neighbors to make sure they are following the same guidelines. If you do your part to clean up but your neighbor doesn't, the bear will continue to come to your properties and cause damage while looking for food. It is extremely important that EVERYONE is on the same page. It only takes one neighbor to cause a problem for everyone.
- ⇒ If after you've tried the above methods and the bear continues to return, please contact WILDCOMM at 360-902-2936, option #1 to file a report. Remember, bears rely heavily on smells and their hearing to get around to locate food. Making noise can work very well in deterring certain bears, so something as simple as clapping your hands or using a noise maker can be effective in deterring them.

**It is very important to know that you could be cited for feeding dangerous wildlife either intentionally or unintentionally.**

- ⇒ **RCW 77.15.792**— Intentionally feed or attempting to feed large wild carnivores or intentionally attracting large wild carnivores to land or building –penalty
  1. A person may NOT intentionally feed or attempt to feed large wild carnivores or intentionally attract large carnivores to land or a building.
  2. A person who intentionally feed, attempts to feed or attracts large wild carnivores to land or building is guilty of a misdemeanor.
  3. A person who is issued an infraction under RCW 77.15.790 for negligently feeding, attempting to feed or attracting large wild carnivores to land or a building and who fails to contain, move, or remove the food, food waste or other substance within twenty-four hours of being issued the infraction, is guilty of a misdemeanor.

# Surfside Beach Paths

Ever wonder where all the beach paths in Surfside are? Here is a list of public paths for members to access so they are not going onto private property or trespassing.

306th Place– Veterans Park

311th Place -315th Place

317th Place-located near the business office

331st Place

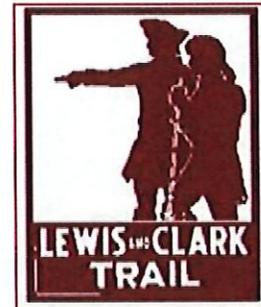

341st Place

345th Place

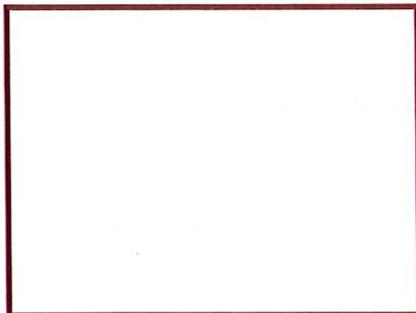

350th Place– just across from the chipping site

357th Place– last path at the north end of G Street

You can find the paths by the path markers

- Please be mindful of the homes and properties bordering the paths, they are private property and trespassing is not allowed.
- Washington’s Definition of Trespassing; Trespassing occurs if you are on someone else’s private property without his or her permission, as well as staying on someone’s property after he or she asks you to leave.
- Washington state trespassing charges are all misdemeanors or gross-misdemeanors, meaning they are punishable either by up to 90 days in jail and a \$1000 fine for a misdemeanor, or up to 1 year in jail and a \$5000 fine for a gross-misdemeanor.

## **Defensible Space: Preparing Your Home for Wildfires**

Surfside's Tree, Brush, Vegetation and Noxious Weeds Committee

Surfside properties are particularly susceptible to wildfires: dune grass, gorse, Scotch broom, spruce or shore pine trees readily ignite during dry summer months. Washington's Department of Natural Resources recommends creating a "defensible space" to protect property from wildfires.

### **WHAT IS DEFENSIBLE SPACE?**

Defensible space is the area between a house and oncoming wildfire where vegetation has been modified to reduce the wildfire threat and provide opportunity for effective firefighting. A defensible space can simply be a properly maintained backyard.

*Surfside Dune Grass and Shore Pine Fires 2016*

### **WHAT IS THE RELATIONSHIP BETWEEN VEGETATION AND WILDFIRE THREAT?**

Many people do not view plants growing on their property as a threat. All vegetation, including grass, native or ornamental plants, is potential wildfire fuel. Properly maintained vegetation can slow a wildfire, shorten the length of flames, and reduce heat, all of which defend the home against oncoming wildfire.

#### **HOW DO I CHANGE THE VEGETATION ON MY PROPERTY TO REDUCE THE WILDFIRE THREAT?**

The objective of defensible space is to reduce the wildfire threat to a home by changing the characteristics of the adjacent vegetation. Defensible space practices include:

- increasing the moisture content of vegetation.
- decreasing the amount of flammable vegetation.
- shortening plant height.
- altering the arrangement of plants.

This is accomplished through the "Three R's of Defensible Space." The article "Creating An Effective Defensible Space" provides detailed information about changing vegetation characteristics for defensible space.

### **THE THREE R'S OF DEFENSIBLE SPACE**

#### **Removal**

This technique involves the elimination of entire plants, particularly trees and shrubs, from the site. Examples of removal are cutting down a dead tree or cutting out a flammable shrub.

#### **Reduction**

The removal of plant parts, such as branches or leaves, constitute reduction. Examples of reduction are pruning dead wood from a shrub, removing low tree branches, and mowing dried grass.

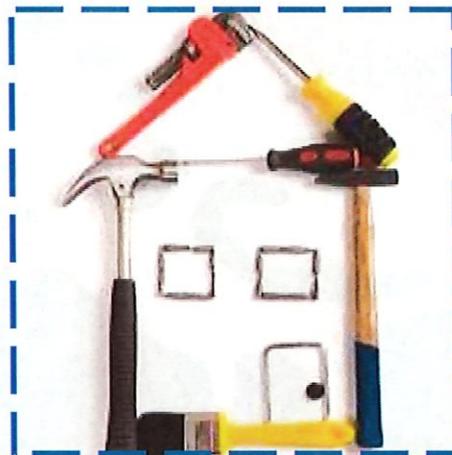

#### **Replacement**

Replacement is substituting less flammable plants for more hazardous vegetation. Removal of a dense stand of flammable shrubs and planting an irrigated, well maintained flower bed is an example of replacement.

**For a defensible space review of your yard, contact Pacific Co Fire District 1 at 360.665.4451 or see: [https://www.dnr.wa.gov/publications/rp\\_fireprevent\\_living\\_with\\_wildfire.pdf](https://www.dnr.wa.gov/publications/rp_fireprevent_living_with_wildfire.pdf)**

## Architectural Committee

Just a reminder if you are planning on installing a fence, a shed, a garage or building a house; **ALL** building plans must be submitted to the Architectural Committee prior to any construction. *Pacific County will not approve permitting until the committee has signed off on all plans.*

The committee meets weekly on Tuesdays at 9 a.m., dependent upon if there are items on the agenda. All applicants are encouraged to attend the meeting (if possible) by phone or in person to answer any questions that may arise.

The building packets are on our website at <http://www.surfsideonline.org/payment-form/> or you can pick one up from the business office. Applications must be received by end of day on Thursdays to make the agenda for the following Tuesday's meeting.

**Two (2) sets of plans must be submitted to the committee.** Once approved, you will get 2 copies of the plans that have been stamped so you can take them to the county for their approval.

For more detailed information on the Architectural Committee duties and guidelines you can find them on our website [www.surfsideonline.org](http://www.surfsideonline.org), under the governance tab you'll see Surfside Restrictive Covenants link.

or call the business office 360-665-4171 with any questions.

## Pacific County Fireworks Survey

Pacific County Board of Commissioners is considering changes to the Fireworks Ordinance. The notice of Public Hearing is linked below. You are encouraged to attend or write testimony of your opinion on the fireworks ordinance. (See attached Public Notice)

An independent experienced professional survey data company has agreed to compile the results of an online survey to send to the Commissioners prior to their 'Public Hearing'.

Please share this survey link (<https://s.surveypplanet.com/gkckwkzez>) to help gather information from all across Pacific County. Your information is confidential. Submitting your email is optional and will not be shared. Your zip code is required in order to see how the different communities in Pacific County view the fireworks issue. The quick online survey will take less than 3 minutes. Thank you for your participation!

COMPLETE THE SURVEY BY MIDNIGHT, THURSDAY AUG 19.

(Results will be tabulated and sent to Pacific Co Board of Commissioners by the Friday, Aug 20 deadline for submissions.)
