

ATTENTION

- Please make sure you are in the correct space. The space number is on the key ring.
- When parking your RV, be mindful that spaces are close together, and park carefully.
- Please ensure you use the CORRECT plug-in if you are in a powered space.
- The power is only 15 amps, please do not overload the system by plugging too many items in. This is just enough power to run a dehumidifier.
- Do not block others from utilizing their plug-in.
- If you use a tarp to cover your RV, please tie it down so it doesn't blow off. Any damage caused by a loose tarp will be your responsibility.

FAQ's

1. Am I allowed to have an RV on my lot?

The RV must always be readily transportable (not set up on blocks or otherwise affixed to the ground). Has current license plates and registration and is not being used as a permanent dwelling unit. RV's must meet all setbacks for their lot.

2. Does my RV have to be connected to a septic system?

RV occupancy for periods exceeding seven (7) consecutive days or thirty (30) days in a calendar year requires connection to a permitted septic system. If you do not have a septic system, you may use your RV provided you keep receipts from a licensed septic pumper or RV dump station and provide them to Pacific County upon request.

3. Can I have an RV cover or other structure with my RV?

Structures such as decks, RV covers, lean-to's, garages, shops, carports, etc., are **NOT** allowed in conjunction with recreational vehicle usage; however, one storage building, not exceeding one hundred twenty (120) square feet in size, being temporary in nature and placed on a temporary or portable foundation, is allowed.

4. Are Park Model Trailers considered RVs?

Yes. "Recreational Vehicle" (RV) means a vehicular type of unit primarily designed for recreational camping or travel use that has its own motive power or is mounted on or towed by another vehicle.

5. What is considered an RV?

In 1.3 of the Surfside Restrictive Covenants, it defines an RV as a "Recreational Vehicle" (RV) shall mean a vehicular type of portable structure without a permanent foundation, which can be towed, hauled, or driven and is primarily designed as temporary living accommodation for recreational, camping and travel use and includes, but is not limited to, travel trailers, truck campers, camping trailers, and self-propelled motor homes. RV also includes boats and boat trailers. RV's must be licensed full-time for road travel and must be in movable condition within one (1) hour.
